

LAKE HAVASU CITY
RAIN SENSOR IRRIGATION CONTROLLER REBATE APPLICATION

The 2015/16 Rain Sensor Irrigation controller rebate program is limited to one controller per house. To be eligible for a rebate, your Lake Havasu City water account must be in good standing. The rebate rate is 75% of the pre-tax purchase price (excluding installation) up to \$100. **Rain Sensor Irrigation controllers must be purchased between October 1st, 2015 and March 31st, 2016, unless funds are exhausted before the end date.** Multiple home owners are limited to 3 controllers (1 per house) (if they meet the above criteria). After installation, submit your application and original receipt (if a business installs the controller, please have them show the pre-tax cost of the controller on the receipt). Rebates will be issued on a first-come, first-served basis, **while funds are available.** Please fill out a separate application for each Lake Havasu City water account. Rebates will be issued as a credit on your water bill. *Water accounts in good standing will be credited the rebate within 28 business days, after a post-installation inspection has confirmed the new Rain Sensor Irrigation controller is in good working order.* **Delinquent water accounts are not eligible for rebates. Water accounts must be in good standing before the City can issue a rebate.**

- 1) Please print and fill out the rebate application.
- 2) Purchase and install the rain sensor irrigation controller.
- 3) Keep the original packaging and highlight the Rain Sensor information for post-installation inspection.
- 4) Attach an original Rain Sensor Irrigation controller purchase receipt to this application and take both to the Building Inspection counter at City Hall. **If a business installs the controller, please have them itemize the cost of the controller on the receipt.** The receipt will be copied and returned to you. City staff will call to schedule a post-installation inspection of the rain sensor.
